

TRUSS ENGINEERING LETTER

Prepared by Delgado Structural Engineering, P.E.
Dated February 27, 2026
Subject Roof truss layout and bearing points
Summary Truss package as manufactured meets the
design loads shown on sheet S2.1.

This is a SAMPLE document from the DryPlans demo job
site. It is not a real permit, plan, or inspection
record, and it is not issued by any authority.

On a real job site this would be the actual document
you uploaded from your dashboard.
